iSolved®

CONQUER IT ALL
Payroll, Time, HR and Benefits

Technology that **transforms** business

In today's atmosphere of producing more work with less staff, it's imperative to integrate business functions into a single source, automate procedures, increase efficiencies and save money. Requiring numerous systems, processing time and attendance and payroll while administering benefits and human resources is time consuming and demanding. Today, these essential concerns are known as human capital management and can all be managed within **one solution.**

iSolved is **cloud-based HCM technology** that gives you complete control over everything from hiring through retiring in one single database. All of your core HR functionality is accessible anywhere, anytime in a completely secure environment. Imagine it, a **single point of entry** to access all your data from any computer or mobile device with internet access!

Report Writer

Employee Self-service

iSolved Go, time off request

Benefits of a SaaS solution

- SaaS technology stays current
- integrate your entire HR duties into one system
- build the reports you need to make critical decisions
- iSolved changes with your needs; never change systems again
- non-interruptive upgrades
- facilitates compliance

Single Database for Payroll, HR, Time and Benefits Enrollment

- single data entry point
- increases data accuracy
- simplify operation
- no more running imports or exports
- increases organizational productivity

Ease of use

- single login
- manager self-service
- executive dashboard
- new hire wizard
- employee self-service
- report writer
- employee data is supplied to all functions

Compliance

It's incredibly difficult to navigate today's compliance maze, remain compliant and avoid costly penalties. With iSolved, you can easily build the reports you need to make critical decisions, identify trends, recognize trouble spots and gather employee data needed to analyze your company's compliance.

With iSolved's data management and reports, you can easily solve:

• Full-time employee status
• The 90-day waiting period
• Affordability
• Handle controlled groups with multiple FEINs

All of your **important, commonly needed, mission-critical** employee data in one place.
